SMART TACKER 2

INTENDED USE

Professional tacker for fastening underfloor heating pipes onto insulation panels and tacker foils. Designed for fast and precise stapling from a standing position, it secures the pipe in place before the screed is poured.

TECHNICAL SPECIFICATIONS

Parameter	Value
Product name	SMART TACKER 2
Compatibility	Almost all commercially available staples of 6 mm thickness and 34–58 mm length, for glued and thermally welded magazines
Magazine capacity	Up to 120 staples
Product features	Very smooth operation, inspection flap with quick-release catch, captive magazine weight with parking position
Stand	Integrated wire stand: the tacker stands upright on its own
Materials	Aluminium, plastic
Weight	2.5 kg (with stand)
Handle height	approx. 900 mm
Range	High Performance – Premium series – Made in Germany
